REDUNDANT (DUPLICATE) PUBLICATION IN A SUBMITTED MANUSCRIPT

Notes

- The instructions to authors should state the journal's policy on redundant publication.
- To help in future investigations, ask authors at submission stage to verify that their manuscript is original and has not been published elsewhere.
- International Committee of Medical Journal Editors advises that translations are acceptable but **MUST** reference the original.
- For cases of concurrent submission of a manuscript to multiple journals, refer to COPE Flowchart: 'Concurrent submissions of a manuscript to multiple journals' https://doi.org/10.24318/IdHSkRn3
- For cases involving completely different sets of authors, refer to COPE Flowchart: 'Plagiarism in a submitted manuscript' https://doi.org/10.24318/cope.2019.2.1

REVIEWER (OR EDITORIAL TEAM) INFORMS EDITOR ABOUT REDUNDANT PUBLICATION

Redundancy may be detected by text-matching or image analysis software

Thank reviewer and say you plan to investigate. Get full documentary evidence if not already provided

Check extent and nature of overlap/redundancy. Suspend review if applicable

If systematic (eg, possible use of paper mill)

FOLLOW COPE GUIDELINES ON 'SYSTEMATIC MANIPULATION OF THE PUBLICATION PROCESS' https://doi.org/10.24318/cope.2019.2.23 **AND SUPPLEMENTAL GUIDANCE** https://doi.org/10.24318/x0mN3xfd

Major overlap/redundancy (ie, based on same data, images, tables, or videos with identical findings); there may be evidence that authors have sought to hide redundancy (eg, by paraphrasing, changing title, reordering/adding/removing authors, or not citing previous papers)

Contact corresponding author and copy in all coauthors with a copy of their signed statement that the submitted work has not been published elsewhere, AND documentary evidence of duplication

No response

Author responds

Conduct online search for current affiliations/emails and contact authors again

No response

If manuscript is (nearly) identical to published article

Unsatisfactory answer/ admission of attempted redundant publication

Write to all authors rejecting manuscript, explaining position and expected future behaviour. Clarify journal instructions if needed

CONTACT AUTHORS' INSTITUTIONS, INFORMING THEIR SUPERIORS AND/OR STAFF RESPONSIBLE FOR RESEARCH GOVERNANCE

Satisfactory explanation (honest error/legitimate overlap or republication)

Write to all authors explaining position and expected future behaviour. Consider if need for rejection, or copyright permission and revision (eg, citation, expansion with new material/findings) and proceed with review. Clarify journal instructions if needed

Inform all authors of your action

INFORM REVIEWER OF OUTCOME/ ACTION

Minor overlap/redundancy, or legitimate text recycling (eg, methods) or re-analysis (eg, subgroup analysis/extended follow-up/ discussion aimed at different audience)

Contact corresponding author and copy in all coauthors expressing concern in neutral terms. Explain that secondary papers must refer to original. Request missing reference to original paper and check need for copyright permission, or request removal of overlapping material. Clarify journal instructions if needed

Where editor has reason to believe failure to refer to previous paper(s) was deliberate (eg, 'salami publication'), consider informing authors' institutions

INFORM REVIEWER OF OUTCOME/ACTION AND PROCEED WITH REVIEW

Contact corresponding author's (or guarantor's) institution, requesting assistance from staff responsible for research governance, if necessary coordinating with coauthors' institutions. Inform authors of your action

Institution responds

Satisfactory explanation

Consider if need for rejection, or revision and copyright permission and proceed with review. Clarify journal instructions if needed

Attempted redundant publication confirmed

No response or inconclusive reply

CONSIDER CONTACTING AUTHORS' INSTITUTIONS EVERY 3 MONTHS

If no response/resolution 1 year after first contact

No significant overlap

INFORM REVIEWER OF DECISION AND PROCEED WITH REVIEW

If no response from authors
